Table of contents

This table provides for cross-references to where GRI-4 performance indicators are discussed in Pinnacle's Annual, Corporate Governance and Sustainability reports as well as the King III checklist. The four documents are available on Pinnacle's website: <http://www.pinnacleholdings.co.za/index.php/investor-relations/download-reports>. References to these four reports are indicated with the relevant page numbers as indicated below. Square brackets "[]" in the body text of the reports refer back to the GRI-4 index below. To provide for better interpretation of the data, the table also provides for data in addition to GRI requirements.

Where Pinnacle did not report on an indicator, it could be that the aspect is not material to Pinnacle's operations. Non-reporting could also be due to the fact that sustainability reporting is in the process of being refined. Ongoing efforts will be made to ensure that material elements will receive the necessary consideration in daily operations as well as to improve indicator coverage and data collection going forward.
