GRI INDEX  
**2022**

## Table of contents

This table provides for cross-references to where GRI performance indicators are discussed in Alviva's integrated annual report 2022. The integrated annual report is available on Alviva's website: <https://alviva.com/report/june2022/>. References to the integrated annual report is indicated with the relevant page numbers as indicated below. Square brackets "[ ]" in the body text of the integrated annual report refer back to the GRI index below. To provide for better interpretation of the data, the table also provides for data in addition to GRI requirements.

Where Alviva did not report on an indicator, it could be that the topic is not material to Alviva's operations. Non-reporting could also be due to the fact that sustainability reporting is in the process of being refined. Ongoing efforts will be made to ensure that material elements will receive the necessary consideration in daily operations as well as to improve indicator coverage and data collection going forward.
